

Interactive Student Demos

Last modified on April 25, 2017

Table of Contents

Are you planning a field trip with **secondary science students** to a Science On a Sphere®? Make the sphere experience more interactive with the Interactive Student Demo activity.

- Call your SOS site and make sure they are aware of the activity
- Download the [teacher instructions and student guidelines](#)
- Browse the SOS Dataset Catalog and refine the datasets your students can choose or be assigned to present on. The dataset catalog can be filtered by:
 - Major Category Air, Water, People, Snow and Ice, Land
 - Themes: Animals, Climate Change, Human Impacts, Natural Disasters, Major Events, Plate Tectonics, Pollution, Renewable Energy, Solar System
 - Keywords
- Prepare your presentations (5 x 5 min)
- Email the datasets to the SOS site
- Present on SOS during your field trip
